Local 1000 Fair Folk Petition

As folk performers, we are privileged to do the work we love, while carrying on an important musical tradition. Like other workers, we need fair treatment and security for our futures. By signing this petition we unite behind the principle of a fair deal for folk performers. We want the North American Traveling Musicians Union, Local 1000 of the American Federation of Musicians, to represent us for the purposes of collective bargaining with organizations who regularly employ us on the North American folk and acoustic circuit. We endorse the principle of a negotiated uniform agreement which employers will sign to provide minimum scale wages, fair working conditions, and pensions.
